Personal profile

I am a highly motivated and detail-oriented professional with extensive experience managing the creative legacies of internationally renowned talent. Combining expertise in Digital Asset Management (DAM) with a strong background in coordinating complex global projects, I excel at building and curating both physical and digital collections from the ground up. Known for a collaborative and solutions-focused approach, I thrive in fast-paced environments, confidently managing stakeholder relationships, competing priorities, and tight deadlines to deliver exceptional results with accuracy and professionalism.

Professional experience

Barber Osgerby

Archivist & PR Coordinator | January 2017 – Present

Founder Partnership: Work alongside the founders daily to curate keynote presentations, manage the studio's public-facing narrative through tailored biographies and field institutional communications.

Integrated Archive Management: Created the physical and digital archive from the ground up, logging thousands of items and designed studio-wide file structures for high-level accessibility.

Digital Infrastructure: Manage the lifecycle of all digital assets, including film, photography, press coverage and created master lists for projects.

Exhibition Logistics: Managed the current retrospective 'Alphabet' at the Triennale Milano, overseeing the loan of nearly 300 items, on-site troubleshooting, tracking all restoration and production costs.

Content Operations: Assisted with the development and design of the studio website, working with the developer on layouts, CMS setup, copywriting and editing images for international project launches.

Editorial & Publishing: Worked with the director to select projects and picture edit the catalogue, while coordinating end-to-end fact-checking and print proofing.

Barcroft Media

Sales & Licensing Executive | August 2016 – January 2017

Client Relations & Licensing: Managed client relationships across editorial picture desks, supporting image licensing, usage monitoring and revenue growth.

Content Coordination & Administration: Worked closely with the internal picture desk to coordinate new material, maintain accurate licensing records and support junior team members.

Rankin Photography

Archivist | January 2012 – May 2016

Archive & Team Oversight: Managed the archive department, overseeing the professional development of assistants and internship programme recruitment.

Digital Platforms: Maintained the primary portfolio website and subsidiary platforms, managing content updates, social media feeds, and the company FTP server.

Asset Curation: Sourced assets for numerous high-profile books and exhibitions, ensuring immediate availability of digital and analogue resources.

Rights & Clearances: Negotiated image licensing agreements and managed complex clearances involving hundreds of concurrent usage conversations.

Syndication: Managed international syndication agents, ensuring adherence to contractual obligations and strict editorial embargoes.

Eyevine

Production Assistant & Photographer | August 2007 – January 2012

Production: Managed high-volume daily production, including technical metadata application such as keywording and captioning for international editorial syndication.

Training: Aided in the training of others to maintain rigorous quality and workflow efficiency.

Skills & expertise

Content Design: Applying a user-centric approach to digital landscapes by structuring complex information into accessible, intuitive layouts. Experienced in working alongside developers to design CMS structures and authoring copy that maintains brand narrative across high-traffic portfolio websites.

Curation: Selecting and sequencing visual and physical assets to tell compelling stories. Expert in translating a founder's vision into tangible outputs, including keynote presentations, retrospective exhibitions and published monographs, with a focus on archival integrity and aesthetic impact.

Marketing & PR: Protecting and promoting the public profile of world-class talent. Experienced in managing institutional communications, coordinating with international PR agencies, overseeing the distribution of assets for global press coverage and social media strategy.

Content & Editorial: A meticulous approach to brand storytelling through copywriting, picture research, and curation. I provide end-to-end editorial support, including rigorous fact-checking and proofreading, ensuring all published material from monographs to digital project launches meets the highest standards of accuracy and aesthetic quality.

Project Management: End-to-end delivery of complex, high-stakes creative projects from international retrospectives to digital transformations and book publishing. Adept at managing multi-faceted timelines, tracking production budgets, and coordinating diverse teams to meet immovable global launch dates.

Archive & Digital Asset Management: Designing and implementing robust information architectures from the ground up. Specialising in the preservation and categorisation of multi-format collections, including digital, film, and physical assets. This work ensures long-term legacy protection and immediate global accessibility through optimised metadata and DAM systems.

Information Architecture: Expert in designing and maintaining scalable digital frameworks, including metadata strategy, Digital Asset Management (DAM), and file structure design. Experienced in CMS management, ensuring that complex data remains organised, searchable and optimised for both internal studio workflows and public-facing platforms.

Studio Operations: Specialist in high-level international project management and stakeholder engagement. I bridge the gap between creative vision and operational delivery by overseeing PR coordination and exhibition logistics, managing complex budgets, and navigating the unique requirements of working with prolific talent.
