Personal profile

I am a loyal, hardworking, and highly motivated individual who thrives on producing and delivering work of the highest standard. I have an extensive background in managing the creative legacies of world-renowned talent, combining technical expertise in Digital Asset Management (DAM) with the ability to coordinate complex international projects. A collaborative problem-solver with a proven track record in curating physical and digital collections from the ground up, I relish a challenge and possess the agility to manage complex stakeholder relationships and diverse project deadlines to ensure all creative objectives are delivered with precision.

Professional experience

Barber Osgerby

Archivist & PR Coordinator | January 2017 – Present

Founder Partnership: Work alongside the founders daily to curate keynote presentations, manage the studio's public-facing narrative through tailored biographies, and field institutional communications.

Integrated Archive Management: Created the physical and digital archive from the ground up, logging thousands of items, and designed studio-wide file structures for high-level accessibility.

Digital Infrastructure: Manage the lifecycle of all digital assets, including film, photography, and press coverage, and create master lists for projects.

Exhibition Logistics: Managed the retrospective 'Alphabet' for the Milan Triennale, overseeing the loan of nearly 300 items, on-site troubleshooting, and tracking all restoration and production costs.

Content Operations: Assisted with the development and design of the studio website, working with the developer on layouts, CMS setup, writing copy and editing images for international project launches.

Editorial & Publishing: Worked with the director to select projects and picture edit the catalogue, while coordinating end-to-end fact-checking and print proofing.

Rankin Photography

Archivist | January 2012 – May 2016

Archive & Team Oversight: Managed the archive department, overseeing the professional development of assistants and internship programme recruitment.

Digital Platforms: Maintained the primary portfolio website and subsidiary platforms, managing content updates, social media feeds, and the company FTP server.

Asset Curation: Sourced assets for numerous high-profile books and exhibitions, ensuring immediate availability of digital and analogue resources.

Rights & Clearances: Negotiated image licensing agreements and managed complex clearances involving hundreds of concurrent usage conversations.

Syndication: Managed international syndication agents, ensuring adherence to contractual obligations and strict editorial embargoes.

Eyevine

Production Assistant & Photographer | August 2007 – January 2012

Workflow Management: Managed high-volume daily production, including technical metadata application such as keywording and captioning for international editorial syndication.

Supervision: Aided in the training of others to maintain rigorous quality and workflow efficiency.
